

Preclinical & Laboratory Removable Prosthodontics Exercises & Seminars

Preclinical laboratory GU5 / group B 9:00-10:30 / group A 10:30-12:00

Date	Code	Title	Basic topics for the lecture
5.10.2022	PLRP1S1	Introduction to Removable Prosthodontics	definition of removable prosthodontics, types of dentures, basic considerations of complete edentulism, clinical and laboratory materials and procedures
12.10.2022	PLRP1S2	Foundation of Complete Denture	causes, changes in the mouth, physiological and psychological factors associated with edentulism, incidence, therapeutic possibilities
19.10.2022	PLRP1S3	First (Anatomic) Impression	trays, materials for a impressions, impression technique, laboratory pouring procedure, trimming
26.10.2022	PLRP1S4	Individual (Functional) Tray	laboratory procedure of tray making, materials, checkpoints for an optimal tray
2.11.2022	PLRP1S5	Functional Impression and Master Model	functional impression - clinical steps, pouring and master model production
09.11.2022	PLRP1S6	Articulators	articulators types, arbitrary articulation, simple face bow transfer, occlusal plane, Campers plane, other reference planes
16.11.2022	PLRP1S7	Occlusal Rims	basic jaw relationships, occlusal rims, rules for producing rims, interocclusal record - simple procedure
24.11.2022	PLRP1S8	Interocclusal Records & Articulation	vertical relation, horizontal relation, clinical procedures of determination (simple), articulation
30.11.2022	PLRP1S9	Anterior Teeth - Choosing & Setup	colour, shape, size, intraoral marks and measurements, rules for anterior teeth setup, laboratory procedures and setup technique (simple)
7.12.2022	PLRP1S10	Posterior Teeth - Choosing & Setup	colour of posteriors, moulds of posterior teeth (anatomic, semi anatomic, Gysi), size choosing, rules of posterior teeth setup, laboratory setup procedures
14.12.2021	PLRPS11	Complete Denture Occlusion	occlusal concepts and their clinical application and reasoning, using different moulds for different occlusal concepts, articulation checking

21.12.2021	PLRPS12	Contouring of Gingiva & Flasking	simple "classic" flasking procedure, reasons for flasking, flasking problems and their clinical impact, alternative flasking procedures, visit to the laboratory
11.1.2022	PLRPS13	Denture Finishing and Delivery	importance of finishing and rules, denture submission and instructions, complications and expectations
18.1.2022	PLRPS14	Virtual removable dentistry	advantages and limitations of virtual procedures for removable prosthesis production
25.1.2022	PLRPS15	Review	advantages and limitations of complete dentures, implant and teeth supported overdentures, fixed complete dentures (All on 4,6 etc.), age and diagnosis appropriate therapy considerations
